Dear Mr. Friedman:

Please STOP requiring cruel and obsolete animal tests for pharmaceuticals and allow companies to substitute in vitro (non-animal) tests for the safety of both humans and animals.

I am an animal lover and I do not agree with nor do I approve of the testing of cosmetics, household goods, etc. on animals. I will no longer purchase products from the specific companies that still participate in animal testing (i.e. Proctor & Gamble)!

If you have any comments or questions, please do not hesitate to write me.

Sincerely,

Kimberly A. Eger
